Leica Viva GNSS GS25 receiver

Datasheet

Proven Technology

Leica Viva GNSS is built on years of knowledge and experience – reliability, availability and accuracy are the hallmarks of Leica Geoystems. You can trust even the most demanding tasks to the Leica Viva GS25. Your benefit – complete confidence to maximize productivity.

Extreme Reliability

Leica Viva GS25 is built to the highest standards for the most extreme environments. With its internal battery charger you can trust the Leica Viva GS25 to perform, whether on a glacier or in a desert. **Your benefit – trust in a sensor that can be used anywhere.**

Unlimited Series

Lean back and observe GNSS modernization with Leica Viva GS25 Unlimited. Future signals are all supported and SmartLink bridges RTK communication gaps up to 10 minutes. Your benefit – safe investment in future proof GNSS hardware.

Leica GS25 GNSS receiver			
Hardware	Weight & Dimensions		
Tiaidware	Weight (GS25)	1.84 kg	
	Dimension (GS25)	220 mm x 200 mm x 94 mm	
	Environmental Specifications		
	Temperature, operating	-40° C to +65° C, compliance with ISO9022-10-08, ISO9022-11-special, MIL STD 810G Method 502.5 II, MIL STD 810G Method 501.5 II	
	Temperature, storage	-40° C to +80° C, compliance with ISO9022-10-08, ISO9022-11-special, MIL STD 810G Method 502.5 I, MIL STD 810G Method 501.5 I	
	Humidity	100%, compliance with ISO9022-13-06, ISO9022-12-04 and MIL STD 810G Method 507.5 I	
	Proof against: water, sand and dust	IP68 according IEC60529 and MIL STD 810G Method 506.5 I, MIL STD 810G Method 510.5 I and MIL STD 810G Method 512.5 I Protected against blowing rain and dust Protected against temporary submersion into water (max. depth 1,4 m)	
	Vibration	Withstands strong vibration during operating, compliance with ISO9022-36-08 and MIL STD 810G Method 514.6 Cat.24	
	Drops Functional shock	Withstands 1.0 m drop onto hard surfaces 40 g / 15 to 23 msec, compliance with MIL STD 810G Method 516.6 l No loss of lock to satellite signal when used on a pole set-up and submitted to pole bumps up to 150 mm	
	Power & Electrical	ap to 150 mm	
	Supply voltage	Nominal 12V DC Range 10.5 - 28V DC	
	Power consumption	Typically: 3.4 W w/o RTK	
	Internal power supply	Recharge & removable LI-lon battery, 5.8 Ah / 14.8 V	
	External power supply	External power supply, battery can be charged inside the GS25	
	Certifications	Compliance to: FCC, CE Local approvals (as IC Canada, C-Tick Australia, Japan, China)	
Memory & Data Recording	Memory	2000, approvais (as to caridad, o tick Australia, Japan, Chilla)	
Memory o Data Recording	Memory medium	Removable SD card: 1 GB	
SD	Data Recording		
	Type of data	Onboard recording of: • Leica GNSS raw data	
	Decording rate	• RINEX data	
	Recording rate	Up to 20 Hz	
User Interface	Buttons	ON / OFF button 6 Function buttons	
	Display	High resolution display: • Easy switch between Rover / Base mode • Easy "Here" positioning functionality • Provides full status • Indicator & configuration options	
	Led status indicator	Bluetooth®, position, RTK status, data logging, detailed power status	
	Additional user interface	Integrated web interface functionality provides full status indicator and configuration options	
Communications	Communication ports	3 x serial RS232 Lemo 1 x USB / RS232 Lemo 1 x 5pin Lemo external power 1 x Bluetooth® port, Bluetooth® v 2.00 + EDR, class 2 1 x PPS output 1 x Event input	
	Simultaneous data links	Up to 3 data links can be attached and used simultaneously 2 real-time output interfaces via independent ports, providing identical or different RTK / RTCM formats	
	PPS output	Accuracy: 120 ns (3σ) Output voltage: 5 V = High Impedance: 50 Ω Pulse length: 1ms Socket: LBMO ERN.OS.250.CTL	
	Event input	Accuracy: $120 \text{ ns } (1\sigma)$ Pulse type: TIL , positive or negative going pulse Pulse length: $150 \text{ ns at minimum}$ Voltage: $Tilde{Ti$	
	Built-in Data Links		
	Radio modems	Fully integrated, fully sealed receive / transmit radios User exchangeable device SATEL, Pacific Crest and TrimTalk support 390 – 470 MHz bandwidth Transmit power: 0.5 – 1.0W	
	GSM / UMTS phone modem	Fully integrated, fully sealed phone modem User exchangeable device Tri-Band UMTS / HSDPA: 850 / 1900 / 2100 MHz Quad-Band GSM / GPRS: 850 / 900 / 1800 / 1900 MHz DynDNS service support – Base station supports up to 10 rovers via TCP/IP	
	External Data Links		
	Radio modems	Support of any suitable UHF / VHF radio	
	GSM / UMTS / CDMA phone modems	odems Support of any suitable GSM / GPRS / UMTS / CDMA modem	
	Landline phone modems	Support of any suitable landline phone modem	
	Communication Protocols	Laine amoritate of course (Laine L. 1992)	
	Real-time data formats for data transmission and reception	Leica proprietary formats (Leica, Leica 4G) CMR, CMR+	
	Real-Time data formats according RTCM standard for data transmission and reception	RTCM 2.1, RTCM 2.3, RTCM 3.0, RTCM 3.1, RTCM 3.2 MSM Full support of RTCM 3 Transformation Message	
	NMEA output	NMEA 0183 V 4.00 and Leica proprietary	
The Unlimited series has free future upgrade to 500+ channels.			

- ¹ The Unlimited series has free future upgrade to 500+ channels.
- ² Support of QZSS is incorporated and will be provided through firmware upgrade.
- ³ Measurement precision, accuracy and reliability are dependent upon various factors including number of satellites, geometry, obstructions, observation time, ephemeris accuracy, ionospheric conditions, multipath etc. Figures quoted assume normal to favorable conditions. Times required are dependent upon various factors including number of satellites, geometry, ionospheric conditions, multipath etc. A full BeiDou, Galileo and GPS L5 constellation will further increase measurement performance and accuracy.
- ⁴ Might vary due to atmospheric conditions, signal multipath, obstructions, signal geometry and number of tracked signals.

Whether you want to stake-out an object on a construction site or you need accurate measurements of a tunnel or a bridge; whether you want to determine the area of a parcel of land or need the position of a power pole or to capture objects for as-built maps – you need reliable and precise data.

Leica Viva combines a wide range of innovative products designed to meet the daily challenges for all positioning tasks. The simple yet powerful and versatile Leica Viva hardware and software innovations are redefining state-of-the-art technology to deliver maximum performance and productivity. Leica Viva gives you the inspiration to make your ambitious visions come true.

When it has to be right.
